WINNIPEG, MANITOBA

January 31, 1964

ARE YOU DOING YOUR SHARE?

By SGT. P. THORMIN - CPL. W. M. DAVIS

Squadron Leader H. Pridmore, Senior Accountant Officer, who is the chairman of RCAF Station Winnipeg's Community Charities Support Plan, is shown presenting a one thousand dollar cheque to Mrs. H. Murphy, Manager of the Industrial Workshops, looks on. The cheque was handed over in the Industrial Workshops office at 592 Notre Dame which is an organization supported by the Society for Crippled Children and Adults of Manitoba for the purpose of rehabilitating disabled persons.

A visit to 592 Notre Dame Ave. would prompt everyone to dig just a little deeper when the Marching Mothers knock at their door on Friday, January 31st, for this is the address of the Industrial Workshop for the Handicapped, maintained by the Society for the Crippled Children and Adults of Manitoba.

In 1947, the Kinsmen Club of Winnipeg saw a need and acted to fill that need with the establishment of The Society for Crippled Children and Adults of Manitoba. With the confidence and support of the Provincial Government, the society has never looked back. A few years ago the same group saw a new requirement. Adequate facilities for the provision of rehabilitation services were required and the Industrial Workshop was born.

The shop is not a trade school but a rehabilitation centre where the handicapped are aided in making the adjustment necessary, if they are to be placed in suitable employment. They are taught good work habits, punctuality and in the case of those who have been sheltered, how to live and work with others.

Social director Miss Mary Wright places much emphasis on the fact that all handicapped persons at the workshop are treated in a like manner in that each worker is encouraged to show improvement in his or her field of work. The result of this type of treatment can be seen in the calibre of work produced by these handicapped people and the eventual placement of them in a responsible position in accordance with their capabilities.

That the programme is a success is borne out by the fact that in 1962, some two hundred handicapped persons were placed in employment. In September of 1963 alone, placement officers of the society secured employment for 14 handicapped persons.

Watching these people perform jobs that the average person depends upon his livelihood, has one coming away feeling that here is no group or individual to be pitied but, rather marvelled at for the way in which they put their heart and soul into each endeavour to achieve the best results.

Under the watchful eye and firm hand of shop foreman Mr. Jack Douglas and his supervisors, piano keys and wheel chairs are repaired, books rebound and lawn furniture re-webbed. Jobs from outside industries such as mechanical assembly, grinding and buffing, drilling and mechanical repairs are carried out in the machine shop.

The sewing shop is a beehive of activity where warning and safety flags, nail aprons, mail, grain and sand bags and window blind manufacture and repair are carried out. In the commercial section, television and radio monitoring; mimeographing, offset and letter press

ST. JAMES SAFETY COMMISSION FORMED

WINNIPEG, Jan. 23—The inaugural meeting of the newly formed "St. James Safety Commission" convened on January 20th in the Council Chambers of the St. James Civic Offices.

Creation of the new Safety Commission results from a St. James Council resolution adopted in November, which calls for the establishment of an official body to develop and implement a programme of civic action aimed at improving conditions of public safety in the city of St. James.

The expanding population and industrial base in St. James together with wider automobile ownership, a higher density of private and commercial traffic, greater home automation, and the continuing trend toward more outdoor activity of all kinds and in all seasons, are some of the many factors cited which have been contributing to the greater number of accidents and mishaps reported in recent months. While measures for public safety in St. James are equal to or better than those in any other urban centre, civic officials state that there is no room for complacency or inaction in the face of today's rising accident level. Moreover, the added pressures of future living and working trends may themselves involve a greater risk of accidental damage or injury for the citizens of the community.

Accordingly, the St. James Safety Commission was formed to improve conditions of public safety through education, and by limiting or removing such hazards as now exist or may in future develop.

Attending the inaugural meeting Monday night were: His Worship, Mayor A. W. Hanks; Alderman R. Gillies, who acted as convening chairman; Aldermen R. Paulley and A. Mackling; Police Chief Maltby, and representatives from civic, business and service organizations in St. James. Elected by

work, duplicating, telephoning service and direct mail services are affected. For messes and organizations that require menus, tickets, bulletins, the workshop should prove a fine source of quality job printing.

One of the pet projects of the shop is the reproduction of the famed Red River Cart. The cart is turned out by the hundreds in all scales from 1/20th to full size, as souvenirs, centre pieces, decorations and presentation pieces and is a true copy of the prototype, handsomely made.

The above services are available to industry and the householder at

(Continued on page 6)

W/C B. D. McArthur, CTSO, was elected chairman of the St. James Safety Commission at the inaugural meeting held in the Civic Offices on Monday, January 20th.

the Commission to the first term of office as chairman was Wing Commander B. D. McArthur of RCAF Station Winnipeg; as vice-chairman, Mr. A. T. Connellan from the St. James Chamber of Commerce; and as secretary, Mr. A. Kawka of the St. James Legion.

In outlining his terms of reference the Chairman said that the Safety Commission had been empowered to commence its work immediately. He stated that the Commission's first task would be a detailed study of the whole problem of public safety, after which the guide lines could then be set for development of a comprehensive programme of public education.

W/C McArthur also indicated that the St. James Safety Commission expects to work closely with the recently formed Greater Winnipeg Safety Council. Such liaison, he said, would contribute to effective and complimentary programs, and also help eliminate duplication of effort.

St. James is the first municipality in Greater Winnipeg to create a separate Safety Commission, charged with the direct responsibility of improving all conditions of public safety for its citizens. It is hoped that this progressive step will stimulate other municipalities to follow suit.

The Royal Canadian Air Force Association

By Mr. H. M. BELL, Director RCAF Association—500 City of Winnipeg Wing

Many recent inquiries indicate that few serving members of the RCAF know anything about the existence of the RCAF Association. Some pertinent information on the Association follows:

This organization is made up of present and past members of the R.C.A.F., and others of Her Majesty's Air Forces. It was formed in 1948-9, under the sponsorship of the then C.A.S. Air Marshal W. A. Curtis. Air Chief Marshal Breadner was the active organizer of local Wings and District Groups across Canada, and the recently-retired CAS—Air Marshal Hugh Campbell, who is now president of the Association, did most of the behind-the-scenes organization work.

The basic aims of the R.C.A.F. Association are to unite Air Force personnel and so preserve and foster the spirit of fellowship among all who have served in Her Majesty's Air Forces, to support the maintenance of an adequate Air Force for the defence of the country, to sponsor and encourage aeronautics in all its branches, to inform the public on Air Force matters, to support the R.C.A.F., its reserves, and the Air Cadet movement, and to co-operate with the Benevolent Fund, Canadian Legion, etc. in assisting in the welfare of ex-Air Force personnel.

Over 80 local Wings, and seven district Groups exist to-day, with a membership of over 12,000. In the Metropolitan area, 500 (City of Winnipeg) Wing has an active group which carries on welfare

work among R. C. A. F. veterans, sponsors No. 220 (Red River) Air Cadet Squadron, supports veteran's work in underdeveloped countries, has a foster child in Hong Kong, supplies sick room equipment to rural areas, and supports the R. C. A. F. through various means, including representatives to the Government for the maintenance of an efficient Air Force.

Annual fees are nominal (\$6.00) which includes subscriptions to Roundel, and Wings In Space — alone representing most of the fees. Funds to carry on the work of the Wing are raised through social functions, and these also help to maintain fellowship among Air Force personnel. Three months Honorary memberships are available to all retiring R.C.A.F. personnel taking up residence in Metropolitan Winnipeg area. It is hoped that all retired members of the R.C.A.F., as well as many serving members, will associate themselves with this group of men and women whose object is to support the R.C.A.F. Recently the whole Air Council took life memberships.

Anyone seeking information on the RCAF Association should contact H. M. Bell, National Director, 643 Academy Road, Winnipeg 9.

There Goes The Old Ball Game

Willie McCovey hit a line drive to Bobby Richardson for the third out in the last of the ninth in the seventh game of the World Series 1962. If it had been one foot farther to the left or the right, the Giants would have been world champs instead of the Yankees.

There went the old ball game. The Giants were victims of chance.

Life is full of dicey situations. Fortunately, most aren't as subject to the whims of fate as to the whims of humans. Unfortunately, the whims of humans aren't as predictable as the whims of fate.

For Example:

As Ace agreed to file a flight plan for Fort Smith and then take the old prospector to Nahani Butte.

As Bill leaned back against the inspection stand hand-rail that wasn't there.

As Tom gave up trying to get the wrench he'd dropped into the wing when they were placing the port tank on "224".

As Charlie passed Fred going up the hill and saw a moving van coming down.

As Dick lit his torch and started welding the cracked fuel tank that hadn't been steamed out properly.

As Hilda tripped over the bottom drawer of the filing cabinet she had left open.

As Ace figured he could stretch the glide on his "out of gas" Norseman—just enough to get her over the tree tops and miss those pressure ridges in the ice around the edge of the lake.

As young Johnnie got Daddy's Mauser pistol to show the good old gang.

As Helen climbed up on the chair on the table to change the light bulb.

As Ed decided to re-chamber that old shotgun of Grandpa's to take 3-inch magnums. There was real good steel in them old guns.

As little Suzy gulped a handful of Mommy's sleeping pills.

As Marty stuck a penny into the fuse receptacle where the 15 amp fuse kept blowing.

As Moses Lefthand's starving beaten dog team went howling into the night after a little snowshoe rabbit and left him 40 miles from anywhere in the north.

As Andy pulled on his hip waders and slicker—didn't want to get soaked in that windy rain during the canoe trip across the lake.

As the big lodge-pole pine bent a little in the wind and dumped a load of snow on the tiny fire that Ace had managed to get going with his last match.

As the big lodge-pole pine bent a little in the wind and dumped a load of snow on the tiny fire that Ace had managed to get going with his last match.

Somewhere the recording angel sighed "There goes the old ball game!"

FAREWELL MESSAGE

Editor of VOXAIR;

On finally pulling stakes from Station Winnipeg I would be most remiss if I did not take the opportunity of thanking the many personnel of all ranks who so ably assisted me in the performance of my job over the past four and a

half years. The names of the individuals concerned would make a most formidable list, consequently I will mention no one specifically, but I do wish to tender my sincere thanks.

As I reach the sunnier and warmer climes of the Okanagan, I will take many treasured memories of Station Winnipeg and its personnel with me.

(Sgd.) W/C MILLAR

Recommendations To Be Made On Reserve

Recommendations concerning the future composition of the Royal Canadian Navy Reserve and the RCAF Auxiliary are to be made to the Associate Minister of National Defence by a Reserve Members Committee of each service.

It is expected that the recommendations will be submitted to the Associate Minister by Feb. 15, 1964.

Each committee will be composed of a chairman and three

members. The chairman of the RCNR Committee is Commodore R. I. Hendry, RCNR (ret'd) of Toronto. His members are: Captains L. B. McIlhagga of Winnipeg, A. W. Ross of Vancouver and W. R. Inman of Ottawa.

The chairman of the RCAF (Auxiliary) committee is Group Captain J. W. P. Draper of Toronto. His members are: Group Captains D. C. Cameron of Vancouver, H. J. Everard of Montreal and D. M. Gray of Winnipeg.

MASSES

Sunday — 9 and 11 a.m.
Weekdays — 9.30 p.m.
Saturday — 11 a.m.
First Friday — 4.30 & 8.30 p.m.

CONFESSIONS

Monday-Friday — Before every Mass.
Saturday — 1900-2000 hours.
Sunday—Before and during both Masses.
Other times—by appointment.

Note: If there is no priest in the professional, ring "Confession" Parents are asked to remind their children to come to Confession after school on Friday afternoon, that is, from 1600 to 1630 hours.

NURSERY SERVICE

During 11 o'clock Mass, young children of parents who attend this Mass will be cared for by nursery service in the Chaplains' quarters.

BAPTISM

Usually on Sunday afternoon. If this is convenient, another day of the week may be chosen. Telephone the Chaplain's secretary during working hours to arrange the date and the hour. This will make it possible for the papers and certificates to be filled in beforehand.

MARRIAGE

Contact the Chaplain or his secretary at least one month beforehand if both parties are Catholics. In the case of a prospective mixed marriage, notice should be given at least two months in advance in order to give time for the couple to follow the instructions required by Church Law.

SENIOR CHOIR PRACTICE is held every Thursday at 7.30 p.m.

JUNIOR CHOIR PRACTICE every Friday at 6.30 p.m.

ALTAR BOY CLASSES every Thursday at 6 p.m.

"A great many people think they are thinking when they are merely rearranging their prejudices," wrote William James, the American philosopher.

You are being tactful if you can put your best foot forward without stepping on someone else's toes.

1964 WEEKLY OFFERING ENVELOPES

These sets are available (gratis) at the Chapel on Sunday, or from the Chapel Secretary during the week. This provides a systematic way of practicing Christian stewardship. Seventy-five per cent of our offering is used for Missionary work of the Church at home and overseas.

CONFIRMATION INSTRUCTION

Personnel interested in preparation for Baptism and/or Confirmation are asked to speak to the Chaplains. The Anglican Confirmation Service will be 15 March; the United and Presbyterian on 8 March.

SENIOR TEENS

The Senior Teens meet every Sunday evening at 7 o'clock in the Chapel. Everyone is welcome. Cpl. and Mrs. Harold O'Keefe, Senior Teen Leaders, will attend their first meeting. Let's give them a big welcome!

VISITING CHAPLAIN

This Friday, 2 Feb., at 1100 hrs., Padre (Major) F. Otke of Ft. Osborne Barracks will be guest preacher at the Chapel (P). Following the Divine Worship Service he will celebrate Holy Communion according to the rite of the Lutheran Church.

TEACHERS REQUIRED IMMEDIATELY

For the Kindergarten Sunday School (children pre-school age) meeting at 11 a.m. Teachers and assistants are required for the Primary School (boys and girls aged 6, 7, 8) meeting at 9:30 a.m. and for the Junior School (boys and girls aged 9, 10, 11) meeting at 1:30 p.m. Please phone Padre Gibson for further information.

JUNIOR CHOIR DIRECTOR

For approximately 50 children, ages 9 to 12. Man or woman to direct. Organist can be available for practices. Please speak with Padre White if you are interested. SENIOR CHOIR practices — Thursdays at 8 p.m. Newcomers always welcome.

DAILY DEVOTIONS

The Chaplains have daily devotions at the Chapel. Your prayer requests are welcomed. To assist you in daily Bible reading, the devotional booklets, "The Upper Room" and "Bible Reading Fellowship", are available at the Chapel, gratis.

An Age of Kings

THE RABBLE FROM KENT

Suffolk is banished. The Duke of York incites an unruly mob to attack the capital and stir up trouble. At St. Albans, the White Rose of York gains a momentary victory.

On the eve of his trial for treason, Gloucester is found murdered in his bed. Suffolk, the instigator of the crime, is banished by the King, in spite of Margaret's passionate plea for her lover. On his way to exile, Suffolk is kidnapped by a band of pirates, whose leader, after taunting him with his treachery, orders him haled away and executed.

The Duke of York, seeking to keep court discord boiling, encourages Jack Cade, a loutish rabble-rouser, to march on London. His gang of cut-throats invade the capital, slaughtering and burning. Finally the fickle mob deserts Cade, who flees and hides in the woods. Famished, he climbs into a garden, where its owner discovers the unknown intruder and kills him.

The rival forces of the Duke of York and Queen Margaret meet at St. Alban's. In the battle, the White Rose faction, led by York and three of his sons, is victorious. Margaret, however, manages to escape the scene of her defeat—with the frightened King in tow.

OVERLOADING BLOCK HEATER OUTLETS

It has been found that the majority of block heater outlet unserviceabilities have been caused by overloading the circuits with too many electrical items, such as block heaters, car warmers, etc.

The cost of repairs to block heater outlets is disproportionate to the importance of these units. Most of these unserviceabilities are entirely preventable if the car owner would limit the appliances he plugs in to ONE block heater.

Checks will be carried out in the future to determine the amperage drawn by vehicles plugged into these outlets, and the licence numbers of automobiles drawing over 5 amps will be turned over to the appropriate authorities for disciplinary action.

The above directive applies to the PMQ area also.

HOGGING THE ROCK

By KEN STEPHENSEN

Well, once again it's MCA time and I understand the RCAF Club is well represented with sixteen rinks as compared to twenty-two last year. The entries came somewhat slower this year and when I heard "the boss" was estimating 507 I figured "here's a chance for easy money," so I risked a quarter on my prediction of 351 . . . NOW, the deadline was last night (I'm writing this Sunday) and though I haven't heard officially, Don MacPherson tells me they have 500 rinks . . . yee gads . . . are all my bets gonna be losers again this year?

After watching hundreds and hundreds of games it almost happened last week in the inter-section league. I almost witnessed an eight ender. Actually the odds were too great since last rock was against the attempting skip, however, he had seven rocks in the house and when he attempted to remove a single opponent's rock he hit it a little too straight and forced it onto one of his own at the back of the house. Anyway it was a good try and worth mentioning since it's the closest anyone has come in the club this year. In the meantime ask Bob Bryant how it feels to sit in the hack looking down at seven blue and one red knowing there is a chance . . . perhaps I shouldn't mention that Pat Smith made a beautiful draw with his last stone and the red counted two!

Well guess who is back? The old Sheik himself Norm "of Arabia" Samain. Norm and Pat are taking Bud and Mae Langdon's place in the mixed league since the latter are on their way to France. Anyway welcome back Norm, . . . Pat of course has remained active even though father was semi retired . . . curling wise of course.

Last Friday night the Air Force Zone Playdowns continued to determine the club representative for the RCAF Championships. On one

side of the double round knockout it was Bremner vs. Barnett and Lord vs. Sather. At this point Sather and Lord were the only two teams alive on both sides. Bremner, who was assisted by Malcolm, Maranchuk and Heagy, took an early lead against Barnett, with Colston, Merkle and Eaton. Bremner stole early singles and then came up with a big three in the fourth to almost put the game away. After that, Barney tried everything he knew to try and get back in the game, but Bremner managed to hold him to singles and won the match running away . . . The Lord vs. Sather contest was a real battle with Sather leading 4 to 3 after five ends. Sather stole one in the sixth and Lord blanked the seventh, which really paid off because he scored a big four in the eighth to lead 7 to 5 . . . Sather blanked the ninth and scored only a single in the tenth to conclude the match—Lord 7, Sather 6 . . . After a brief rest, Lord and Bremner took to the ice to determine the winner of "A" Side. Bremner blanked the first two ends, scoring a single in the third. Both teams then exchanged singles and after six ends it was 2-2 with Bremner having the advantage of last rock. Curly managed to place rocks in front of the house and with his last rock made a beautiful draw behind a guard. Bremner's draw to the house was heavy and Curly stole one. In the eighth, two Lord stones formed a pocket in the eight foot and when Bremner went to shoot his last rock, he came down a little heavy taking one Lord stone and rolling out himself to make the score 4-2 Lord. Singles were then exchanged with Lord winning the game 5 to 3 . . . On the "B" side of the sheet, Sat Nite . . . Lord met Maxwell and Sather met Merriam. All teams started off slow and the inability of them to get their second shot in prevented anyone from jumping to an early lead. After seven ends Sather led Merriam 4 to 2 but in the eighth Merriam hid one and with last rock scored two. His draw was almost an inch short as everyone watched it slow down, but in the last instance Don Smart put the broom to her making it 4 all. After each took singles, Merriam

won the game in the extra end 6 to 5 . . . Meanwhile, Maxwell and Lord were having a similar battle with the score tide 5-all after eight, both teams had scored doubles in the previous two ends. With last rock Curly had one of his few misses of the night and allowed Maxwell to steal two making it 7 to 5 coming home. In the tenth, Max had to make a double take out to preserve his lead and Curly's single ended the game—Maxwell 7, Lord 6. So . . . following a rest, Maxwell and Merriam met to determine who would meet Lord in the best of three final next week. Once again it was a fiercely contested match where every miss drew sighs from the spectators and perhaps the players as well. With the score 3-2 Merriam, after five ends, the house fell in on Ron when Maxwell scored a big three to take the lead 5-3. In that critical sixth, which probably was the deciding factor of the game, Maxwell had one rock in the house with several rocks in front. Joe Price, Merriam's third, raised a Maxwell rock in when his draw cut too much with the in turn. Max tried to plug the port but left enough room for a draw. Merriam tried the same shot as Price and also raised in a Maxwell stone. Again Max tried to plug the port and again there was still enough room for a draw, Merriam however rubbed a guard and failed to reach the house. Both teams then jockeyed for position and after ten ends it was tied 7 all, with Maxwell having last rock, which he used to advantage scoring two in the extra end to win 9 to 7 . . . So Max meets Curly and unfortunately we have to go to press before that time, however to both teams—Best of luck and we certainly hope the winner goes all the way.

Last Sunday the final Inter Club Games for 63/64 took place at the Pembina Curling Club where Curly as usual represented the RCAF on one ice while Mac McCarter completed the challenge on the other. Lord's rink played Bob (Rod) Lynch, Ken Hawkins, Don Cockrell and Tom Lynch (no relation) which actually was not the regular rink as Skip Tony Hawkins was sick and all players moved up one position with Tom Lynch coming in to spare on a few minutes notice. Meanwhile McCarter prepared to do battle with Jack Gray assisted by Charlie Lamb, Doug Dawson and Len Pokrant. This was McCarter's first inter club game this year and his team of Pat Kilpatrick, Ed Schalme and Pete Saunders are to be congratulated on their fine showing. Unfortunately they didn't come away winners but the game was in doubt all the way until the ninth when the Pembina sharpshooters stole a big three and gave up a single in the tenth to end the game Gray 10, McCarter 1 . . . Meanwhile Lynch, playing shorthanded for a few ends, was not having it so easy as his team appeared to be having a little difficulty adjusting to the ice, nevertheless they stayed within range until the seventh, trailing 6 to 4 when Lord took a big three ender,

for a five point lead. Lynch took singles in the eighth and ninth and almost had Lord in real trouble in the latter end but Curly came through with a fine draw cutting Lynch out of two. Lord gave up a single, but not the advantage of last rock coming home. The last end went according to Hoyle and the game ended 11-6 Lord. You might say there were no losers or winners, anyway, both games were very much enjoyed and from talking to representatives I would say Pembina is certainly to be congratulated on its fine ice. What does puzzle me though is that while the curlers were on the ice I had the pleasure of talking to Mrs. Lynch and during our conversation she kept referring to her husband as "Rod," and since I wanted to make sure I had his name correct, I asked her how come his arm crest read "Bob," she started laughing and said it's too long a story, which naturally arouses one's curiosity. Perhaps next year we'll find out.

Well the boys are back from Gimli and Dominion City. Unfortunately the latter groups failed to make any headlines, while the Gimli participants apparently made several, some for curling . . . Ted Trimble, Ron Merriam, Ron Powell and Lovell Lord managed to place third in the first event, winning themselves Coleman stoves. Nice going fellows . . . Ross Hambly was also a winner for the biggest end of the bonspiel. Unfortunately, on the last day another rink tied his six ender, thus splitting some choice pieces of fish down the middle . . . Truth is stranger than fiction, so they say, well you be the judge . . . All I know is that Manitoba is John Cotter's home province and there are not too many places he hasn't been, either

MINOR HOCKEY

CPL. M. D. SMITH
Sports Director, Community Council

Bantam "B" — The "B" flyers played at home to Deer Lodge last Friday evening. The boys continue to play good hockey but were out-scored by the visitors.

Playground "A" — The flyers played away at Kirkfield Park and, although they lost, they never gave up. Since the start of the season all these teams are vastly improved.

Playground "B" — The flyers lost their game to Lismore Rec Centre last Saturday. A fine game offensively played by the Flyers but the visitors capitalized on defensive lapses of the locals.

Playground "C" — The visitors Varsity View—the score—Flyers 2, Varsity 0. A team effort all the way for the shutout. The entire team deserves mention for the big effort.

HOUSE LEAGUE

Two mid-week fixtures between the Combines and the Raiders ended in two points each as on Monday, 20 Jan. The Raiders defeated Combines three to two while Wednesday, 22 Jan., Combines bounded back with a two to one decision

over Raiders. After the week's action the scores and standings are as follows:

Atom			
Rockets	7	Ramblers	3
Shamrocks	6	Bulldogs	2

Pee Wee			
Starfighters	1	Voodoos	1
Jets	4	Raiders	1
Combines	1	Sharks	0

Standing as of 26 Jan. '64.

Atom						
	W	L	T	F	A	Pts.
Shamrocks	4	2	0	32	16	8
Ramblers	1	4	1	12	38	3
Rockets	6	0	0	43	12	12
Bulldogs	0	5	1	4	25	1

Pee Wee						
	W	L	T	F	A	Pts.
Starfighters	4	1	1	19	15	9
Voodoos	3	1	2	27	19	8
Combines	3	1	1	11	6	7
Sharks	2	3	1	12	11	5
Raiders	1	3	1	9	13	3
Jets	1	5	0	6	29	2

For anyone interested in hockey they have only to note the scores and the standings in our House League to realize the type of hockey being played by these youngsters. They deserve your support. Pictured below are two of our Pee Wee teams. Next week and in following weeks we hope to have more pictures.

THE SHARKS, coached by MR. CREBO
Back Row, left to right: Bruce Goyetche, Rance
Hubbs, Mark Wood, Bruce Dagg, Spence Par-
son. Front Row: Jeffrey Desjardins, Ricky Robert-
son, John Stangroom, Albert Skinner.

THE COMBINES, coached by MR. MCKENZIE
Back Row, left to right: David Langdon, Jamie
Hubbs, Bruce Baldwinson, David McMenamon, Pat
Martin. Front Row: David Burton, Richard Hubbs,
Bobby Williams.

SUPPORT MINOR HOCKEY!

BATON TWIRLING

For all interested in the art of the baton, lessons are to be available shortly. Information may be obtained by calling Miss Marlene Jackson, at VE 2-5300. I have had the opportunity of watching this young lady perform and she is terrific. Miss Jackson came third in competition for all of North America.

SCUBA NEWS

The 1964 season commenced on Tuesday, 21 Jan., when the Stn. club joined forces with the RCAF Stn. Portage for a two hour session in the pool. The first of the evening was spent on swim conditioning; the last hour on scuba instruction.

The Portage Club was out in force on the 21st with their tanks, etc. They appear to have a large number of personnel qualified to instruct and their willing services were much appreciated by our own attending members. Their club enthusiasm and under-water traffic control was very impressive.

This brings us to our club. A re-organization meeting is to be held on Tuesday, 4 Feb, at 7:30 p.m. in the dining room section of the Recreation Centre canteen. This meeting will be held on a Scuba night so bring your gear, we're killing

BROOMBALL

two fish with one dive. The business to be completed at this meeting is important to the future of the club. A new executive has to be elected, and the new requirements as laid down in AFRO's read for the members who do not know of the changes.

The club requires interested members to join, especially from the female ranks; the Portage girls are wonderfully outnumbered.

Finally, there is approximately four months remaining until lake diving begins and we want to see as many as possible "on the tanks" by then.

By MICHAEL J. KOSTER

During the previous meeting of the Astra Numismatic Society on Tuesday, 21st of January, 1964, an interesting lecture was given on some very old religious tokens by Mrs. Hazel Elmore, FRNS.

She brought at least thirty of these tokens which were made in Scotland nearly 200 years ago. We learned that some of the Scottish pastors, during those years, would not permit anyone into their churches unless the individual showed his token bearing emblems or some indication that he or she really does belong to that particular parish.

Another point of interest emerging from the meeting is the Station Coin Club's second coin show which will be held at the reception centre on Sunday, 15th of March, from 2 to 6 p.m. Mr. Gerry Boux, FRNS, will conduct the coin show and several of our members will have their coins on display. All are invited to attend.

The next general meeting of the Astra Numismatic society will be held in the GIS Theatre of ANS, Room 219, at 200 hrs. on Tuesday, 11th of February.

CLUB 61

By JIM LEWIS

- February schedule of events:
- Sat., 1 Feb.—Band Dance.
- Sun., 2 Feb.—Film, "Man Who Knew Too Much." (James Stewart, Doris Day).
- Sat., 8 Feb.—Band Dance, "Dave Shrimpton."
- Sun., 9 Feb.— Film, "We're No Angels" (Humphrey Bogart).
- Sat., 15 Feb.— Valentine's Dance, "Emeralds."
- Sun., 16 Feb.— Film, "3:10 To Yuma" (Glenn Ford).
- Fri., 21 Feb.—All Nite Bonspiel.
- Sat., 22 Feb.—Band Dance, "Harmonies."
- Sun., 23 Feb.—Film, "Li'l Abner."
- Fri., 28 Feb.—Toboggan Night Party.
- Sat., 29 Feb.—LEAP YEAR DANCE "Nomads."
- Sun., 1 Mar.—Film, "Strangers when We Met" (Kirk Douglas, Kim Novak).

Looks like February is just chucked full of fun for Club 61 members and their guests. So why not join us at the Club??? Remember by supporting your club activities and showing an interest you are encouraging the committee to bring you better entertainment. Why not clip out this schedule and save it so you won't miss out on the fun this month.

Saturday, 1 Feb., will be a double header entertainment bill . . . The Ed Lane Trio will start the evening off right with music from 9 till 11:30. Then Al Jackson and his Dixilanders will take over until closing time. This should prove to be a most entertaining evening, so plan now to attend.

ANS GRADUATES

6208 — NAV

F/O Don Schmidt

F/O Schmidt was born at Southey, Sask. in October 1943. He received his primary schooling in Hazelwood and in 1956 moved to Regina. He completed his education in that city, receiving his Senior Matriculation at Martin Collegiate. He worked for an electrical firm prior to joining the RCAF.

F/O Wayne Keates

F/O Keates was born and educated in Kingston, Ontario. While obtaining his Senior Matriculation from Kingston Collegiate, he served in the Royal Canadian Sea Cadets and with Prince of Wales Own Regiment. Prior to joining the RCAF, F/O Keates was employed with the Royal Bank in Peterborough, Ontario. He was married one week prior to graduation from ANS.

F/O C. W. Robinson

F/O Robinson was born in Stettler, Alberta in 1939 and received most of his education in the Edmonton area. He served in the Royal Canadian Air Cadets, and during one summer was an airframe tech with the Edmonton Auxiliary Squadron. He enrolled at the University of Alberta in Edmonton under the ROTP programme and received his B.Ed. from this Institute.

F/O Carroll

F/O L. P. Carroll was born May 27, 1944 in Halifax, N.S. He received his education at various Canadian points following his father through his numerous postings with the RCN.

In June, 1962 he received his Senior Matriculation at Halifax West Municipal High School, and applied for aircrew training with the RCAF in August of that year.

He enjoys team sports such as hockey and baseball.

F/O D. McLeod

F/O McLeod was born in Dundee, Scotland. His family moved to Canada in 1953 and took up residence in Vancouver, B.C.

He graduated from Kitsilano High School in June 1959. He then attended UBC for two years.

In the month of October 1962 he was sent to OSU at RCAF Stn. Centralia.

F/O Forbes

F/O Forbes was born in Grande Prairie, Alberta in February 1940. He completed his public and high

school education in Hythe, Alberta and joined the ROTP while attending the University of Alberta. He received one year's leave of absence to attend the Graduate School, University of Illinois. In August 1963 he returned to ANS to complete his navigation training.

F/O G. V. McEwen

F/O McEwen was born 22 Sep. '38 in Guelph, Ontario.

He received his Senior Matriculation at Pembroke College and Vocational Institute in 1956. One year later he enrolled at the University of Toronto where he received a B.Sc. in Chemical Engineering in 1963.

F/O McEwen joined the ROTP in 1958 at the end of his first year at University.

He is married and has two children.

After wings graduation, he is to be posted to 4(T) OTU at Trenton.

6207 — RO

F/O Ron Hatton

F/O Hatton was born in Preston, Lancashire (England) in 1943. He immigrated to Canada ten years later and took up residence in Guelph, Ontario. He received his Junior Matric in Guelph in July 1962 and joined the RCAF in October of that same year. In December 1963 he married Miss Lenora Kidd of Winnipeg.

F/O L. P. Fike

F/O Fike was born in Collingwood, Ontario, in April 1942 and received his Junior Matriculation from Collingwood District Collegiate Institute. Shortly after joining the RCAF in October 1962, he married the former Miss Sheila Lockhart, also formerly of Collingwood.

F/O John Decruyenaere

He was born in St. Boniface, Manitoba in 1940, and obtained his B.A. in Latin Philosophy from the University of Manitoba. He was married to Miss Pauline Letourneau of St. Boniface in April 1963. He taught High School French for one year, and follows three brothers into the RCAF.

F/O Jean Louis Petitclerc

He was born in Quebec City in October 1937. He also lived in Montreal where he received his formal education, obtaining his Junior Matriculation in 1957. Prior to acceptance by the Air Force, he was a sales representative for a leading Montreal firm. He joined the RCAF in October 1962.

F/O Bob Moffatt

F/O Moffatt was born in Almonte, Ontario in 1943 and attended public school in Cornwall, Ontario. He completed his high school education in Ottawa. Bob is an avid sportsman.

F/O Gary McPhail

He was born in Vancouver, B.C. in 1944 and shortly afterwards moved to Falconbridge, Ontario. It was here that he received his primary education while attending Nickle District Collegiate and Vocational Institute. He graduated with a Junior Matric in July 1962.

F/O Jolyon King

F/O King was born in Georgetown, British Guiana in Oct. 42. On completion of his education at St. Stanislaus College, Georgetown, he immigrated to Canada, arriving here in Aug. '62. He was immediately accepted for Officer training with the RCAF in the aircrew trade.

ARE YOU DOING YOUR SHARE?

(Continued from page 1)

reasonable rates and it must be remembered that commercialism is not the aim of the Industrial Workshop nor is monetary profit looked upon for gain. The services performed by the handicapped are for their own benefit and sustain some of them, to a certain extent, as their only means of support.

The Society for Crippled Children and Adults of Manitoba is providing one of the most comprehensive rehabilitation programmes in Canada. Your contributions to the March of Dimes will enable the society to expand and experiment with new services so that Manitoba will continue to be a leader in this field.

HOGGING THE ROCK

(Continued from page 4)

north, south, east or west. WHY THEN, should he get lost trying to find Winnipeg Beach from RCAF Station Gimli and thus default his game. In fact there's some talk that he actually wandered into a curling club and asked: "Is this Winnipeg Beach?" Imagine his surprise when they replied: "No, this is Drunken Point Curling Club 20 miles north of Gimli" . . . hmm . . . In the meantime Curly Lord and his team are on their way to Morris, perhaps a warm up for the MCA, in any case next week we'll report on their success or lack of it and also the finals of the Air Force Playdowns.

FIRE PLUGS

CPL. W. M. DAVIS

Last year, while stationed in England, your writer viewed the flying of several WW11 aircraft and could not help but think that the crash fire fighting facilities and manpower available at most airports in the world today might just about fill the bill as crash protection for such aircraft.

The fire service has a history that dates back long before the great fires of London and Chicago and long before the Wright brothers and Mr. McCurdy came on the scene. The city of Chicago has one of the most complete libraries in the world and an entire section is dedicated to the fire service and the deeds of the men who have worked so diligently for its advancement. How can the fire service hope to maintain this esteem in the public eye when lives are lost almost daily on airport runways throughout the world?

Governments and corporations have for years invested billions in the quest for bigger and faster aircraft but never seem to give thought to the question of dollars for crash protection research.

Crash rescue vehicles are a very expensive item, but due to a large number of persons that may be involved in an emergency and the consequences when a disaster occurs, the dollars involved are unimportant.

Manpower is another expensive item, but when weighed against the possible life toll the cost is again negligible.

Current crash rescue tactics are based mainly on techniques developed by the military during WW11 and slowly refined as apparatus and equipment advances have occurred. It is evident that the airport fire protection concepts are based on fire apparatus types satisfactory for piston driven aircraft, and as a result fire fighters are hard pressed to cope with jet aircraft emergencies. It is hardly comforting to view these facts in the light of increasing aircraft size and speed, as well as the greater utilization of air travel.

Entirely new approaches are needed right now before aeronautical and astronautical scientists make practicable what is presently experimental. This means that all persons concerned with crash rescue and flight safety must bend every effort to make certain that no possibility of improvement of personnel, technique or equipment be overlooked.

It is not the writers intention to belittle any effort already put forward, but only to point out that many of the decisions and effort made in the field have been made while in a WW11 frame of mind.

A dictionary definition of research states, "It is a careful search, a close searching, a critical and exhaustive investigation having for its aim the revision of accepted conclusions in the light of newly discovered facts."

The pace of our present-day living is being rapidly accelerated by these new aircraft, themselves the product of research. In many cases there is no experience upon which to base conclusions, only intensive research will provide the answers

We welcome Cpl Al Seavers to 16 hgr. Al just arrived from 2wg. Also coming to Serv/W are Cpl Young from the east site, and LAC Kilfoyle from I & E Repair.

Unfortunately we are also bound to say goodbye to old friends in exchange for the above. Cpl Ken Tait is on his way to 16 hgr as is LAC Freddy Ferdlund. Best wishes to you all.

LAC R. V. Primeau will be going west in March but only as far as Rivers. We wish you every happiness there.

A work request from the CE section raised in Apr. '62 and turned down once was resurrected the other day by WO Scott.

PS Lorne Common, the originator, felt that there would be a definite improvement to the morale of Trans/serv personnel if they were provided with recreational facilities including a 6X6 foot felt covered table, chairs, cards, eye shades, a fridge stocked with beer, a subscription to Playboy, etc.

Although the request was initially denied on the grounds that

it might create an impression of, (quote) "a school for the advancement of vice and immoral acts," the general feeling now is that since times have changed somewhat and RCAF personnel are permitted a greater degree of sophistry, the only grounds for a denial may be the austerity program.

Trans/Serv personnel are not really in need of a boost in morale but visiting personnel need a boost after running into Wpg. weather. The request there is considered properly substantiated.

Rumour has Sgt C. G. Lark going to replace Sgt Luigi Brega in MWOR, and Sgt O. Karkkainen coming down to 11 hgr to replace Sgt Lark.

Our book club received another shot in the arm and we now have about 50 new books. We are a bit disappointed that it is not used by crewmen and other personnel who we thought had more time to read.

Congratulations to Chuck MacDonald on his election appointment as PMC of Club 61. Here's your chance to learn parliamentary procedure inside and out.

SQUARE DANCE

The Red River Reelers' Square Dance Club has sponsored a second Beginners' Group. They have completed three nights of dancing and the newcomers are having a ball. Dick and Gladys Carson, who taught the first group, are back again and will swing.

Those of you who have thought about learning to square dance, now is your chance, so why not come out and give it a try, no doubt you will make a go of it and will stay to graduate in the spring as a qualified know-it-all square dancer.

Come out and enjoy the fun, fellowship, coffee and doughnuts.

This is the last call for beginners.

Location—Building 23 (east site)

St. James, Man. Tel. VE 2-1381

The Advanced Group under the leadership of Ted and Lil McNeill is rolling along with a membership of 25 couples. The group is getting so good (at least we think we are) that we are bravely venturing out to dance with other clubs throughout the city. The results are doubtful, but an enjoyable time is had by all.

HAVEN'T WE MET?

The sexton had sat down in a rear pew to observe the wedding. "Isn't it exciting!" whispered the woman sitting next to him. "They've only known each other two weeks and here they are getting married."

"Well," replied the sexton, philosophically, "it's one way of getting acquainted."

WINNIPEG BUFFALOES

By SLAPSHOT

RON PRIMEAU—Forward Born in Prince Albert, Sask., 1938, Ron is playing his 3rd season with the Stn. Team. Ron is a graduate of the P.A. Juvenile hockey set-up and Airforce intersection. Although Ron is only 5'5" - 155 lbs., he is a very agile and capable forward who will be missed by his team mates when he reports to Rivers on transfer. At present Ron is employed at Trans-Servicing. Best of luck, Ron, and continued hockey success.

BILL MITCHELL—Forward "Mitch" is playing his second year with the Buffalos after coming to TCHQ-TOCE from AFS Gimli. While in Gimli he played 3 years with the station team after returning from 1 Wing. "Mitch" boasts a 5'8" - 155 lb. physique and "shoots" left. One frosty day in 1930 in the Peace River district "Mitch" first saw the light of day. He started his hockey career early in the Juvenile league and graduated to Junior in Edmonton.

The Buffaloes played two games this past week. One against Stonewall on Wednesday, Jan. 21, the second against Beausejour on Sunday, Jan. 26. On both occasions the Buffaloes came out on the losing end of the score board. This leaves the Buffs with 3 wins and 5 losses in their first 8 games.

Wednesday's game was all Stonewall's. They pumped in 3 goals in the first period. The Buffs' first goal came at the 7 minute mark of the second period. Dan Stefano was awarded a penalty shot when he was dragged down from behind on a breakaway. Dan made the penalty shot good but Stonewall came right back with their fourth of the night. Bill Mitchell scored the Buffaloes' second goal but Stonewall came right back with two more before the period was over. This left the score 6 to 2. In the final period Stonewall outscored Winnipeg 3 goals to 2. Dan Stefano and Ollie Oliver got the Buffs' final goals. Final score: Stonewall 9, Winnipeg 4.

Sunday's game against Beausejour was a good one spectator wise. The score was 2 to 2 at the end of

the first period. Beausejour hit the scoreboard first with goals at the 5 and 6 minute mark. The Buffs came right back and Pap Paposki and Jean Paul Guy tied the score before the stanza was over. The second period was hard fought by both sides but Beausejour picked up 2 goals to lead 4 to 2. The Buffs tried a comeback in the third period. Red Houghton scored at the 8 minute mark leaving only a one goal margin between the two teams. Beausejour came back with a goal at the 12:45 mark and another in the dying minutes of the third period to put the game out of the Buffaloes' reach.

Bob Sabourin played his first game of the year in goal for Winnipeg and put in a real fine performance.

The Buffaloes have two games coming up, one against the league leading Gimli Wolves who are riding a 7 game winning streak. That game is to be played in Gimli Jan. 29. The second game is to be played at the University of Manitoba on Friday, Jan. 31, against Riverton. Friday's game will start at 8:30 p.m. Come and support your team.

NOTICES

PEN PALS WANTED

Phillip Abbey of Perth, Australia, would like boys and girls his age to write to him. He will be 16 years old 20 April. His address: 9 Mt. Henry Road, Manning, Western Australia, Australia. Manning is a suburb of Perth, which is in the state of W.A. And remember—it is summer time down there just now!

SHERWOOD'S TV SERVICE CLINIC — MDPR 104A. 25 years in electronic servicing. Why pay that extra to cover "running expenses" from downtown? For government licensed service on your doorstep — call ERIC at 837-1275.

Manitoba has 39,255 square miles of fresh water, almost one sixth of the Province's total area. Manitoba has more water in proportion to total area than any other province except Ontario.

* * *

She had come home with a new hat and the husband had criticized her for extravagance.

"It didn't cost a thing," she argued. "It was marked down from twenty dollars to ten dollars, so I bought it with the ten I saved."

Queen Approves New RCAF Badge

Air Material Command Headquarters recently announced that Her Majesty the Queen has graciously approved the unit badge for the RCAF's 6 Repair Depot.

The badge design is based upon the phoenix, a mythical bird which consumed itself on a funeral pyre and rose again with renewed youth and vigour to complete another life cycle. The golden phoenix rising from flames symbolizes the new life given to materiel at the repair depot and the ingots represent the basic materials used in the refurbishing processes. The motto may be translated as "Nothing is beyond our repair".

Based at Trenton, Ont. since its formation in February, 1940, 6 Repair Depot is the RCAF's only unit where officers and airmen may gain experience in extensive repair and overhaul procedures.

Over the years the depot's role has changed from that of a repair facility to that of a school teaching advanced industrial processes and management techniques and producing valuable repair work as a by-product. The depot handles about five per cent of the RCAF's total repair and overhaul work. The rest goes to civilian industry.

There are now more than 60,000 users of natural gas in Metro Winnipeg, and a total of 681 miles of mains have been installed up to October 1, 1963.

Each subsequent day50
Returning dog to residence (if required)50

Dogs will only be returned to claimant on production of current dog license.

(Signed) D. A. WILLIS, G/C
Commanding Officer

Fortune's Favorite and Daring Young Man

Have you ever pondered the question of why we still have accidents? For many years now the Air Force has pursued a vigorous campaign of safety education — hangars and shops have display boards for safety posters, we are urged to attend safety films and there exists a very comprehensive volume of Engineering Orders devoted to safety. Still these unforeseen, unwanted and unpleasant events continue to happen. Can it be that perhaps some of us have developed a form of sales resistance and have turned away from an objective consideration of the need for reasonable caution by a feeling that each of us is, after all, something special? To a greater or lesser degree each of us clings to the feeling that the undesirable or catastrophic that happens to others can't happen to us. Deep down each of us is convinced that, despite his experience to date, he is really fortune's favorite.

Well; any crap shooter who has dropped a bundle trying to make eight "the hard way" or any horse player who has bet the grocery money on a long shot in the third will tell you that fortune is a most fickle minded old blister who gives no warning when she decides to take her favors elsewhere.

There is also another small segment who feel that any regard for normal precaution is, in some obscure way, a reflection on their

courage — that to be careful is to be cowardly. They frequently take unnecessary chances in order to reassure themselves that they are not fearful and frequently they get hurt.

To any of these, who read this far, two considerations are offered:

- (a) that fear is a normal healthy emotion and in normal amounts keeps us from doing harm to ourselves or others through foolish disregard,
- (b) that courage may be defined as the control of fear not as the absence of fear.

At this point some reader is probably thinking that this is a peculiar attitude for people engaged in the profession of arms where we may be required to give our lives for our country. So be it — but it serves a more useful purpose to stay in there rough, tough and nasty and see to it that those who oppose the success of our arms give their lives for their country.

Now this is not to suggest that we withdraw from life and become obsessed with safety. From time to time we will be required to take risks, but let us quickly assess the situation and select a course of action calculated to give us the best odds. Then if things still go wrong we won't be explaining to St. Peter (or whoever is adjutant at the other reception centre) that we had been feeling very lucky or very daring.
