

Evening, Club 61 had a party which turned out to be a success. It seemed as if it was at its best and most of the evening everyone had the hill. Tired to try again, food was laid on. As completed with a diversified entertainment go out to Jim Lewis available. Needless to say everyone enjoyed themselves despite the many hard Saturday morning and stiffness. WINNIPEG HOME OF TC BAND

THE RCAF TRAINING COMMAND BAND

Since the earliest days of organized warfare, bands have been closely associated with the military forces of a country. The music played by military bandsmen can range from the exhilarating strains of the bagpipes leading Scottish troops into battle, to the soul stirring music of massed bands playing at a military tattoo.

It is a rare military force nowadays that does not boast its own musicians, and the Royal Canadian Air Force Training Command is no exception to that rule.

The 55-piece Training Command (TC) Band, which is one of two full-time bands in the RCAF, the other being the Central Band at Ottawa, was formed in Winnipeg at the end of the Second World War. From 1947 until 1964 the band was based at Edmonton. Last July, due to a recent reorganization of bands in the air force, the TC Band returned to its former home at RCAF Station Winnipeg once more.

Prior to receiving its present title in 1959 the band was known as the North West Air Command, the No. 1 Tactical Air Group and the Tactical Air Command Band.

Over the years the band has had a number of directors, the present holder of that office being Flight Lieutenant J. E. Woods, a graduate of the Royal Academy of Music and the Royal College of Music.

While the TC Band is primarily organized as a military band its musicians are equally proficient whether they are called upon to play at a military parade or upon a dance floor. In a normal day the band may play at a ceremonial parade, give a concert for sick children, play music at a mess dinner and finish the day providing music for a station dance.

The aim of the RCAF Training Command Band is to continue to bring Canadians, servicemen and civilians alike, pleasure through the medium of good music.

players and, above all, the extraordinary attractive and gifted dancers from all corners of Mexico.

Acclaimed by huge audiences in its U.S. debut in 1962, the company of 75 during last season's tour was even more enthusiastically received.

Tickets may be purchased at the Celebrity Concerts, Hudsons Bay Store and are priced as reserved seats \$2.00, \$3.00, \$4.00, \$5.00.

Merry Go Round Of Revolving Credit

If anyone told you that hundreds of thousands of Canadians and American families are clamoring to sign up for a credit plan which forced them to pay about 18% more for their clothes, hardware, cosmetics, shoes, and other purchases, you would think he was testing the limits of your gullibility. Actually this is absolutely true.

Even veteran credit managers express amazement at the public's enthusiasm to enroll in the new, revolving-credit plans being prompted by department stores and mail-order houses. Few of these people seem to realize what a high premium they will be paying for this credit.

Here is how a typical revolving-credit plan works. Based on the customer's income and ability to repay in monthly instalments, the credit department sets up a credit maximum. This might range from \$100 to \$500. The customer gets a credit card which enables him to charge anything in the store or catalogue up to his credit limit.

Each month, the customer receives a statement of his account. Should he wish, he can pay the balance in full within thirty days with no charge for the credit or service. Used this way, revolving credit works like a regular no-interest charge account and is convenient and inexpensive.

But the majority of revolving credit customers accept the store's invitation to pay only a part of the balance each month. Usually they are asked to pay one-sixth of the balance due; if the balance stands at \$300 the customer is asked to pay only \$50. He is then urged to charge more items up to the original maximum of his credit union.

As the promotional literature of the revolving-credit plan put it, the store will then charge "only 1 1/2 percent per month on the unpaid balance". What most people do not know is that his 1 1/2 percent amounts to a whopping 18 percent per year simple interest. (most of us get only 3 percent interest on our bank savings accounts).

Not only is 18 percent a lot of money to pay for credit, but the popular revolving-credit plans hide some other pitfalls which make revolving credit one of the most vicious inventions of our way of life.

Hardly any people use them as no-interest, thirty-day charge accounts. They quickly fall into the habit of instalment buying. Soon they are presenting the credit card to buy all types of non-durable items which they could easily buy for cash. Every family at one time or another may go into debt to purchase a needed washing machine or

REVOLVING CREDIT

(Continued from page 1)

stove, but revolving-credit addicts use their cards to buy candy, nails, records, paints, hardware, underwear, etc., etc.

We say "18 percent or more" because the mechanics of revolving credit are such that families may pay even more than this. It depends on how the credit department keeps its books. You may end up paying as much as 108 percent if you purchase an item on the 25th day of a thirty day month, and are charged the 1½ percent rate for these five days.

Again, the clever campaigns to get customers to buy up to the limit of their credit encourages families to remain perpetually in debt. Month after month they charge non-durable items, pay a fraction of the balance, absorb the 18 percent or more credit charge, and go back to buy more on credit. Chances are they will never pay up to the full balance and get back to cash purchases.

Family financial advisors seldom make blanket recommendations.

There always seems to be exceptions to the rules. But when it comes to budget-breaking, revolving-credit plans, almost all advisors issue one warning: stay clear of them.

Most of us have to watch our pennies. We shop for bargains. We find it hard to put savings aside for a college education for the kids, Christmas presents, a family vacation trip. We simply cannot afford to spend 18 percent more for every day items we could easily buy with cash.

If you have become entangled in a revolving-credit plan, try to pay up the balance and then destroy your credit card. Instead of revolving credit, try to pay cash, limit yourself to a thirty day no-interest charge account, buy furniture and appliances at stores which allow ninety days to pay without credit charges, borrow money at one percent per month on the unpaid balance from your credit union.

Get off the revolving-credit merry-go-round today. Like all carousels, it takes you for a dizzy ride but gets you nowhere.

Pen Points To Personality

By
Pam
Pawlak

"Marigold"

Along with t-bars we look at i-dots, and they often complement one another. Look for the curly ones to show humour (often with wavy t-bars), and the little sharp arrows-heads to show an irritable nature (with pointed t-bars). The precise dots right over the stem of the i show exactitude, if other signs in the writing verify this, if very heavy in pressure they mean cruelty or spite. The dashed or "fly away" dots go with post-placed t-bars to show haste, impulsiveness. The round circles in the above sample are the individualists, often artistic, and sometimes introspective.

Marigold is a vivacious and warm personality, with a great sense of humour, who can be relied upon to keep up a lively and witty conversation. She will make a good hostess, for she is responsive and friendly, sincere and truthful and enjoys company. Besides her personality she has excellent taste and aesthetic sense. She is an individualist and will be up to date and modern in her dress and her ideas. Although logical and clear thinking, a practical person, she does have a tendency to be impulsive, and sometimes may act or speak quickly, and is also spontaneously generous. She has a very quick, penetrating mind and good concentration, and shows initiative and courage.

Children are natural mimics and will act like their parents in spite of all attempts to teach them good manners.

"August"

You are really aware of your abilities, so you don't need me to tell you, but you do lack self-confidence, so you don't always make the best of them. You are shy and rather afraid of people, and sensitive to criticism, and often imagine you are being criticized or slighted when such is not the case. Perhaps this is partly because you yourself have a critical mind, you think deeply, mentally taking things apart, although you are tactful and considerate, and do not criticize others openly. You are a careful and conscientious worker, neat, exacting and efficient. You have a logical and methodical mind and would be good at book work or mathematics; you have good concentration, plenty of patience and the ability to remain calm and unruffled under pressure or in emergencies. You are very co-operative, and are happiest following a regular routine, and with somebody in command to take the lead and make the decisions. You are sincere and truthful and show generosity, although not to the point of extravagance. You are quiet and gentle, and have good taste and a good sense of proportion. You are not physically strong and probably tire easily.

CWL BAZAAR

The CWL is an active organization the whole year round. They are involved in many charitable projects. To realize the fulfillment of these projects they need, above all, cooperation. Among these projects is the education of a Seminarian in India.

Presently, they are planning a giant bazaar early in May. This requires much preparation in the way of ideas as well as physical and material contributions. They request all the good will (a characteristic of our group) of all its members in assisting on the different committees.

Anyone who can help and is willing to contribute time, help or even a good idea please contact Pam Pawlak (VE 2-4466) or any one of the executive members, or write your name on the paper pinned to the bulletin board at the Chapel entrance.

3. Location of all exits from the house, including openings on to porches and/or extensions from which a rescue could be made. Make sure that exits are not blocked.
4. Emergency Telephone Number—FIRE DEPT. POLICE AND DOCTOR.
5. How to shut off or control heat in units.
6. Have a flashlight available for the Baby Sitter—IN GOOD WORKING ORDER!
7. Destination of Parents—Telephone number or other information on how they can be reached and/or the name of a responsible person to call in an emergency.
8. The sitter that you employ should have a good sense of responsibility and should like the children and preferably live in the neighborhood.

GOLDEYE DIVERS AT THE POOL

Left to right, Peg Cowan, Jack Cowan, Terry Theil and Bruce Rodner watching as Peg and Terry get ready for the final phase of their training.

GOLDEYE DIVERS

By JOE (E) SHIELDS

Thursday night showed a lot of activity. In the training phase of our Scuba programme, two more of our club trainees finished their pool check out. Lac Ray Raymus and Mr. Kjell Sundin have filtered through the class two qualifications.

Our instructor Tom Thomas finally got to try out his new Xmas present, after we all tried it.

All you potential divers may be quite interested with Tom's creation which looks like a theme from Buck Rogers but it does away with that very cumbersome weight belt a diver has to wear to get under and into the clear cool waters. Any interested divers may come out Thursdays at 2000 hrs for a sneak preview of this ingenious piece of diving gear.

Never fails—This statement always arises after a water accident "How could it have happened" he was an expert swimmer. So remember always wear a life jacket when water skiing.

SHARK SWIM CLUB

Saturday, the 27th of February, the RCAF Shark Swim Club will host the St. James YMCA "Seals" at an informal swim meet at the Station pool. This event will start at 1800 hours, and parents are invited to attend.

With the important swimming meets of the year to take place during the next two months, the Air Force club members are beginning to realize the need for conditioning and are hard at work.

To qualify for these meets the members are required to meet the standard times for their particular age group, and stroke, and have regular attendance at all practices.

Parents are invited to attend practices and volunteer to help with the Club's activities.

Practices times:

MINOR HOCKEY

By BILL WHITEHEAD

In Playground action over the weekend, one game was played. Our Playground "A's" took on "Silver Heights" and came out on the short end of a 4-2 score. Our boys looked like they were away to a convincing win in the earlier part of the game but some bad errors by our boys paved the way for 4 easy goals by "Silver Heights". Goal scorers for our "A's" Bob Whitehead and Bill Dunning with Carl Baldwinson assisting. Harrison's goaltending deserves star rating.

Rip Ripley gave up command of his "Jets" to Larry Bertrand and will devote his time to coaching an All Girls Team. They will play exhibition games with teams in our "Pee Wee" house league for the remainder of the season. The name chosen for this team is "Bomberettes" and under the capable coaching of Rip Ripley this team will no doubt make its presence felt before the ice goes out. They have already had their initiation, by taking on our "Starfighters". The "Bomberettes" left quite an impression with the crowd and with a few more practices they will give a good account of themselves. Keep your eye on girls like Darlene Eady, Joanne Pelletier, Kathy Merkel, and Maureen Munn and a lot more like them in the near future.

Plans are under way for our "Hockey Wind Up" and the date is set for Saturday, Mar. 27th, and will take place at the Old Drill Hall on the East Site. Exact time will be announced in our "Voxair" very shortly.

F/L John Crawford who took over as coach of our Senior boys, has been put out of action for a short while, Coach Crawford is in "Deer Lodge" and is sadly missed by his Senior boys. All Minor Hockey groups wish him well and hope he will be back in action soon.

BASKETBALL VICTORY

Action at the Station Gym as LAC Fred King aids in RCAF's 68-53 victory over United College.

STATION BASKETBALL

By R. BARNES

The Station Basketball Team had a successful year this season, having lost only five games. The team placed fourth in the League of nine teams, and will be starting the playoffs on the third of March against the first place team Batherist, in a two game total point semi final series. The second game is on Wednesday the fourth of March, Station Gym at 7:30. I would like to see as many spectators as possible out to the game as it will be exciting no matter who wins.

Last week's game was one of the best of the year with the RCAF coming out on top with a 68-53 win against United College. Fred King, one of the League's leading scor-

ers, paced the Station Team with a 22 point effort. F/O Robin Barnes, LAC Tom Burke and LAC Bob (Tiny) Armstrong were all in the double figures as well—A good team effort.

See you all at the Gym on March fourth to give the team a boost to the championships.

FULLY INSURED

The workman had been reading over a sheet of technical instructions. "What's a cubic foot?" he asked the foreman.

"I'm not quite sure," was the reply. "Go in and ask the superintendent, he'll know."

The superintendent was puzzled but helpful. "You go ahead and make up a claim," he instructed "and I'll make sure you get full compensation."

VOLLEYBALL

The Manitoba "B" Volleyball tournament took place at the RCAF Gym on Saturday, February 20th, with ten teams participating. The weather had little effect on the outside visiting teams such as Camp Shilo and the Grand Forks USAF team. The RCAF won seven games and lost six. Although not qualifying for the finals, the Air Force team will now be better prepared for the forthcoming RCAF zone and final volleyball championships.

As with most RCAF teams just before play-off time, we will be losing the services of two of our outstanding players: F/L Ian Morrice, who is heading south, and Sgt Jack Kroepin, who will be on course at Station Camp Borden. However, with a strong nucleus and new players from the intramural league, the Station team should once again be in contention for the RCAF Volleyball championships for 1965.

With less than two weeks before the zone play-offs, the team will take advantage of this time for concentrated work-outs and exhibition games with local teams, to be well prepared. The team practices every Monday, Wednesday and Friday from 1130 to 1300 hours. Anyone wishing to try out for the team is welcome to turn out for practices.

"Character is what God and the angels know of us; reputation is what men and women think of us," said Horace Mann, 19th century German-American educator.

"That man's silence," English novelist Thomas Hardy commented succinctly, "is wonderful to listen to."

16 HANGAR NEWS

It's my turn to use the pen so here I am again.

Ron Merriam, Archie Charles, Ron Bobinski and Bill Baxter won the honour of representing Zone Two in the RCAF Curling Bonspiel 8 to 12 Mar.

Cpl Lorne Listoen is in Deer Lodge and will probably remain there some three weeks. So how about some visitors.

Congratulations to Cpl and Mrs. Marty Martin on the birth of their daughter, six pounds 10 ounces, 13 Feb. Mother and baby are doing fine. Father is still shaky from the strain of the extra long waiting period. In fact the whole Photo section is grinning with relief to see the end of the long delayed event.

Sgt. Ross Boast is at Cold Lake on course prior to a possible transfer overseas.

S/L and Mrs. L. H. Boucher left on the 22nd for Spain on a month's holiday.

Messrs C. J. Brosche and D. J. Webster are at School of Met, Trenton, assisting in the MetO instructional program. They will be returning to their wives and families in the latter part of March.

SPECIAL to Sgt Lark . . . more fodder for your cannon . . . as of today Manitoba has had below freezing temperatures for 85 consecutive days.

Padre Gibson has an extensive library on subjects ranging from atheism to gambling, to psychoanalysis, to sex in his office in 16 hangar. There is some good reading here available to all. You don't have to stick with dusters due to lack of material!

WO Demers informs us that while he was on leave the weather was simply beautiful (in Florida). I'm sure it was nice in Jamaica, too.

Fond farewell to Gene Fanjoy, taxidermist, now with Federal Electric, on course in Chicago then up to the Dew Line.

The red and white '59 Ford last out of the parking lot mornings belongs to George Borden, Flight Planning Centre.

LAC Jim Fraser, ex-Navy, (5 years) is not too pleased about his trade or location, but we are happy to have him and will do our best to cheer him while he becomes accustomed to Airforce life.

Amos Belliveau, the man with the horn, is transferred to Rivers.

LAC Al Winniger is due to go overseas and is deeply concerned about the what and how of moving his pure bred Burmese cats. Maybe some Burmese cat lovers would like to take them off his hands.

A Free Press article "How To Get a Pension at 28", 17 Feb 65 infers that the source of monies paid to pensioners is public funds. The source really is a pension fund paid into by employee and employer, in this case the serviceman and DND.

DANCING CLASSES

Instruction in interpretive and modern dances will be given each Thursday at 8 p.m. at the gymnasium, bldg 90. These classes are open to dependent wives, senior teens and airwomen personnel. Emphasis is on fun and fitness. No previous experience needed. All that is required is gym clothing and gym shoes. For further information call Mrs. Jansen at 837-4400.

SOARING . . . W

Soaring is the art of effortless flight. Through the use of ascending air currents, an experienced sailplane pilot can sustain his flight for long periods of time, fly several miles and attain velocities. For example, the world record for distance is 396 miles. The world record for highest altitude is 60,000 feet for a distance of 60 miles. The world record for speed is 45,000 feet for a distance of 60 miles.

SOARING' . . . Re

to Power Fl
 There is a close interrelationship between the sport of power flying and soaring. Many pilots who take up soaring to improve their skill in power flying. Aside from the private power quality of soaring, it is a sport to continue flying for several months when it is not possible to do much soaring. A youngster may find the healthy excitement and teamwork of soaring a ground operation
